Dental Trauma:

Surgical and Endodontic Management

Dental trauma is the injury affecting teeth, gums or supporting structures and is one of the most **common emergencies** that dentists encounter. Delivering prompt and appropriate care is crucial for achieving the best outcomes and preventing long-term complications.

This lecture focuses on the **assessment, diagnosis, treatment of dental trauma** including **surgical** and **endodontic interventions**. The lecture will address the most common causes of dental trauma, factors influencing treatment outcomes, and the importance of **effective patient communication**.

By the end of the lecture, participants will have a **comprehensive understanding** of how to approach **traumatic dental injuries** with confidence and skill.

What you'll learn...

- To **incorporate** the latest **Dental Trauma Guidelines** into the decision-making process for managing dental injuries.
- To learn **assessment, diagnosis, timing, and management strategies** for traumatic dental injuries and soft tissue injuries
- To understand factors **influencing outcome** of success

Target audience: Dentists, Dental Hygienists, Dental Assistants

Presenters

Sami Ali
DDS, MS, ED

Dr. Ali earned his degree in Dental Surgery and holds a Master's degree and Endodontics certificate from **University of Southern California**, School of Dentistry. Dr. Ali has over 25 years of extensive experience in the field of dentistry. In addition, Dr. Ali has teaching experience at the **University of Southern California**. He is an active member of the **American Association of Endodontics** and **California Dental Association**. Dr. Ali has spoken at many dental conferences and societies. He also, hosts and speaks for the RC Endodontics study club.

Danny Kim
DDS

Dr. Danny Kim is a board-certified oral and maxillofacial surgeon. Born in South Korea, he spent much of his childhood moving between South Korea and Southern California, giving him the unique opportunity to become bilingual. He attended the **University of the Pacific**, completing the 3+3 Pre-dental accelerated program to earn both his bachelor's and DDS degrees. After dental school, he completed a one-year internship at **Parkland Memorial Hospital** in Dallas, Texas, followed by an Oral and Maxillofacial Surgery Residency at **Broward Health Medical Center/Nova Southeastern University** in Fort Lauderdale, FL.
